

The Sexton Place Condominium Association
Resolution (Administrative) 2010 – 02
Rules and Regulations
Change to the Garden Hose Rule

5. If you use a garden hose or other equipment, it must be stored out of sight when not in use. During the months of May through September your hose may be neatly coiled (in a small tight coil) beside your home (your hose cannot be on a sidewalk, driveway or in anyway be a hazard to pedestrian traffic). Owners may request approval for a specific garden hose holder. No holder that attaches to the building will be approved.

BE IT RESOLVED that the Managing Agent, in coordination with the President of the Association, shall collate this amendment into the Rules & Regulations Manual and shall provide the same to the Membership. An amended copy of the Community Rules and Regulations will be available to all owners on the community website.

Adopted this 19 day of July, 2010.
